

JINIX CHACKO

AL / ML ENGINEER

+91 9400963798 | www.linkedin.com/in/jinixchacko | jinixch@gmail.com | <https://jin-ix.github.io/Portfolio>

Innovative and detail-oriented AI/ML Engineer with strong expertise in machine learning, deep learning, and data-driven modeling. Skilled in developing and deploying predictive models using Python, TensorFlow, and PyTorch. Experienced in feature engineering, model optimization, and performance evaluation. Passionate about building intelligent systems that solve real-world problems and enhance decision-making through data and automation.

PROJECT EXPERIENCE

Player Injury Risk Dashboard & Virtual Coach

- A predictive dashboard using player performance and wearable sensor data to assess injury risk.
- Integrated a virtual coach chatbot offering personalized training and recovery suggestions.
- Tools: Python, scikit-learn, chatbot APIs.

Alzheimer's Disease Prediction Using CNN

- Developed a ResNet-based CNN model for classifying MRI scans of the brain.
- Tools: Python, Keras, TensorFlow.

Knee Osteoporosis Detection Using Deep Learning

- Used Convolutional Neural Networks and image augmentation for improved accuracy and generalization.
- Achieved high precision in classifying early-stage osteoporosis.
- Tools: Python, TensorFlow, Keras.

Heart Failure Risk Assessment using ML & DL

- Developed and compared models like TabTransformer, XGBoost, AlexNet, and LSTM to predict heart failure risk.
- Tools: Python, PyTorch, TensorFlow, Scikit-learn

AREA OF EXPERTISE

- | | | |
|---|---|---|
| • Python & Data Analysis (Pandas, NumPy, Scikit-learn) | • PyTorch & TensorFlow Frameworks | • SQL & Database Management |
| • Machine Learning Algorithms (XGBoost, Random Forest, SVM) | • Model Deployment (Flask, Streamlit, FastAPI) | • Problem-Solving & Analytical Thinking |
| • Deep Learning (CNN, RNN, LSTM, Transformers) | • Data Visualization (Matplotlib, Seaborn, Tableau) | • Leadership & Team Collaboration |

EDUCATION

Integrated M.Sc in Computer Science - Data Science

St. Joseph's College, Moolamattom

July 2021 -

Higher Secondary Education

St. George's HSS, Vazhathope

June 2019 - March 2021

ADDITIONAL INFORMATION

- **Languages:** English, Malayalam, Hindi
- **Certifications:** Power BI Certificate from Microsoft, Google Data Analytics Certificate, Meta Data Analyst Certificate, Python Certificate from IBM, Power BI Certificate from NSDC.
- **Awards/Activities:** Winner of multiple intercollegiate debate competitions, Maintained a strong academic record alongside hands-on project development, Actively participated in multiple sports events and represented the college team throughout the study period.
